

Recording Audio for OC Audio

If you have any questions, please feel free to email OCAudio.origins@gmail.com

For Android Phones:

- Download "Smart Recorder" from the Play Store
- Open the "Smart Recorder" app
- Tap the red record button
- Record your reading
- Tap the green tick button to save
- Tap 'Recording 001' to edit the title. Type the title for your recording. (See the document, *ID & Naming Protocols*, for info on what title to use)
- Push the ◀ button twice to return to the recording screen
- Tap "Recordings" in the bottom left hand corner
- Find your reading and tap it to open
- Tap on the three dots in the bottom right hand corner of the screen. A menu will open up
- Tap on share
- Select your email account/app from the options
- Send your audio recording to OCAudio.origins@gmail.com

For iPhones:

- iPhones come with an audio recorder app called "Voice Memos." Find the "Voice Memo" app and open it
- Tap the red record button
- Record your reading
- Tap the red record button to stop
- Tap "Done"
- Type the title for your recording and tap "save" (See the document, *ID & Naming Protocols*, for info on what title to use)
- Open your newly saved reading by tapping the title in your list of recordings
- Tap the share button 
- Select your email account/app from the options
- Send your audio recording to OCAudio.origins@gmail.com
